LAWRENCE CHARLES O'NEILL SEEKS DIVORCE

Lawrence Charles O'Neill has brought an action in the superior court against his wife, Marie O'Neill, for an interlocutory decree of divorce on the ground of cruelty. The O'Neills were married at Los Angeles on November 23, 1914 and separated on March 12, 1919. They have a son two years old. The community property consists of an equity in a small home in the county. $240 in bank and liberty bonds worth $250. The father asks for the custody of the minor child.

A PITIFUL MATTER BROUGHT TO LIGHT IN SUPERIOR COURT

A case of filth, dirt, squalor and moral degeneration was exhibited in the superior court room on Wednesday when John Naughton and his family, consisting of a wife and seven children, the eldest of whom is 15 years and the youngest eight months appeared by a citation from the Judge. The family lives in squalor in a shack at San Bruno. The neighbors complained to the authorities and the family was cited to appear in court. The mother of the children is feeble minded and is unfit to care for her children. They are permitted to roam at will without any restraint. Mr. Naughton is a hardworking man, but being away all day is unable to care for his offsprings. He earns good wages but the mother cannot manage her household. A proposition was made by the court to separate the children and place them in various homes but the father's natural love for his boys and girls asserted itself and he would not consent to this. Judge Custer of San Bruno stoutly maintained that the neighbors of the family would not permit them to reside in San Bruno. After considerable argument Mr. Naughton finally agreed to remove the family to the residence of his sister in San Francisco. This is certainly a pitable case and a strong argument for a law prohibiting such marriages.

RODERICK HEYDENFELDT ARRIVED IN "FRISCO"

Roderick Heydenfeldt, young son of Mr. and Mrs. Thomas O. Heydenfeldt of Atherton, arrived in San Francisco on Tuesday with the Sixty-Second Coast Artillery Corps from overseas with which he has been for nearly a year. The young man has been in France for a long time and just before the war closed was at the battle front. He probably will be mustered out today. His parents are anxiously expecting him home this afternoon. He has had a world of experience but is glad to get back to his beloved state and home.

WORD FROM ARTHUR J. LAMB WHO IS IN GERMANY

Arthur J. Lamb writes to his mother from Germany as follows:

Montabaur, Germany, February 20, 1919.—My Dear Mother: I received your most welcome letter of January 4, and was awfully glad to hear from you.

Montabaur is across the river Rhine and a very pretty place ,but give me dear old California and I'll be mighty glad when I get back.

I received your Christmas box; also the 26 francs and believe me, I did enjoy all.

I never have much time to write as they have me watching all night and sleeping all day, but I did enjoy the holidays in a quiet way, and for Christmas dinner we had chicken, potatoes, gravy, pie and cake, but on New Years we had only beans.

I am in the First Division and the army of occupation, and I feel very sorry for the Mothers whose boys have been killed over here.

Please give my regards to all the Redwood City people and tell them I might be home by July 4, and I hope I do, as I don't like it over here.

Your loving son,
ARTHUR J. LAMB.

THE GIRL'S BODY IDENTIFIED WAS MISS INEZ REED

The mystery surrounding the identity of the "D. Hoy and wife of San Jose" who registered at the Hotel Mateo last Friday morning was deepened today when it became known that Samuel Guluizzo, blacksmith of 409 South D street, San Mateo, has filed suit for divorce in Redwood City against Tena Maggi Guluizzo, a daughter of Mrs. Rosa Maggi, proprietor of the hotel, in which he names one "John Doe Hoy" as his wife's affinity. According to a report from the office of Sheriff Michael Sheehan, Guluizzo alleges in his complaint that the specific act of infidelity between his wife and the mysterious "Hoy" occurred at 409 South D street, San Mateo, last Sunday, which was the day following the discovery of the woman's body in the Crystal Springs ravine and two days after the mysterious "D. Hoy and wife of San Jose" registered at the local hotel. The law firm of Swart & Lyon are attorneys for Guluizzo and, according to the police, the divorce complaint has been on secret file in Redwood City for several days.

Circumstances surrounding the visit of the mysterious couple to the Maggi hotel last Friday became even more mysterious this morning, when the San Francisco police announced that they were not satisfied with the statements made by the members of the Maggi family and that they have asked District Attorney Swart to secure sworn statements from Mrs. Rosa Maggi and her son. Detective McConnell of the San Francisco police department ,who found the blood-soaked linen in the hotel, insisted that sworn statements be secured from the Maggis.

Who are the man and woman who occupied room No. 13 at the Hotel Mateo in San Mateo from 3:15 to 4:45 o'clock last Friday morning?

This is the question for which the police are still seeking an answer and upon which, they believe, depends a quick solution of the murder mystery of Crystal Springs canyon.

With the body of the young woman victim of the criminal operation now at the San Francisco morgue, the authorities are seeking to solve the mystery and apprehend the perpetrators of the cold-blooded crime in either one of two ways—by learning the woman's identity or by running down the mysterious automobile party that made a brief stop at the San Mateo hotel early Friday morning.

The page from the register of the Hotel Mateo upon which the mysterious couple registered was removed from the book and taken to Redwood City by Sheriff Michael Sheehan, who will have photographs made of the signature made today.

Under Sheriff H. W. Lampkin, who has made quite a study of handwriting, informed the News-Leader Wednesday that the signature on the hotel register is not "D. Hoy and wife of San Jose," but "D. Hay and wife of San Jose." Lampkin pointed out that the "a" in "Hay" is much more like the "a" than the "o" in San Jose.

The body of the murder victim was removed from the Sneider undertaking parlors in San Mateo about 3 o'clock Wednesday afternoon and removed to San Francisco, after Coroner Brooke had received the following letter from Chief of Police White of San Francisco:

W. A. Brooke, Esq.
Coroner, San Mateo County:

Dear Sir: I respectfully request that you deliver the body of the unidentified woman who was found dead in your county on last Saturday, March 8, 1919, cause of death being due to a criminal operation, to Chief Deputy Coroner John A. Kennedy, representing the coroner of San Francisco.

The reason for this request is that I desire to assist the officials of your county by conducting a thorough investigation, which I trust will lead to the identification of the dead body and the arrest and conviction of the person or persons guilty of the crime.

The morgue at this city, under the supervision of Coroner John Gallagher, has facilities that no other coroner's office in this state has for the preserving of a dead body for the purposes of identification.

Assuring you that my only interest in this matter is the assisting of officials from a neighboring county, I beg to remain, very respectfully.

D. A. WHITE,
Chief of Police.

The body of the woman was identified yesterday by her brother-in-law, as Inez Reed.

CRYSTAL LAUNDRY HAS COMPLETED BIG IMPROVEMENT

J. V. Casey, the popular proprietor o fthe Crystal Laundry on Main street, has just completed over $12,000 worth of improvements in the laundry building so that it is now one of the most modern laundries in the county. Several new and modern washing machines were installed last week. A new system of electric irons was put in recently so that all the ironing of clothes is done by electricity. This is a big saving in labor and time. Mr. Casey has in contemplation the installation of a new water softener to cost several thonsand dollars. Work can be then done more easier and the result on the clothes will be manifest. A large boiler costing over $2000 was installed during the week together with several new and up-to-date mangles.

Mr. Casey since taking over the plant has spent over $25,000 in improving the property. It is today a modern institution doing good work, satisfying the customers and building up a substantial business. Mr. Casey is a tireless worker and is doing all he can to please his patrons.

Twenty-two girls and twelve men are employed in the laundry. The pay-roll is over $600 a week. Redwood City should be proud of such an institution.

A COURTEOUS FEDERAL OFFICIAL FOUND

It is refreshing in these days to find a government official who is affable, courteous and willing to please the public. Many of them are so obsessed with their own importance and authority that they seldom consider the plodding public. Chauncey D. Kent, the internal revenue agent who was sent here by the government on Tuesday to give information concerning the income tax and also to collect the tax proved himself to be an affable, painstaking and patient official who did all he could to please those having business with him. He made everyone right at home. He listened patiently to all inquiries and gave his information in a prompt and agreeable manner so that all left satisfied with the treatment they had received. Mr. Kent at once gained the confidence of all, thus making his work here easier.

The business men and others are loud in their praises of his ability, affability and his quickness in dispatching business. Mr. Kent held forth at the court house. Mr. Kent's home is in San Jose and for several years has been employed in the internal revenue department. He will be kindly remembered in Redwood City.

NEW MARKETS AND THE MERCHANT MARINE

The Republican Publicity Association, through its president, Hon. Jonathan Bourne, Jr., has given out Washington headquarters:

"Among the problems of the greatest importance in the future commercial and industrial success of the United States is that of development of a merchant marine of sufficient magnitude to carry the bulk of our foreign trade. Since we have been and shall continue to be an exporting nation, our chief problem is to find new, larger, and more profitable markets for what we have to sell, so that the net returns to the American producer shall be as large as competition in the markets of the world will permit.

"To find new and larger markets for our products, several undertakings are essential. First, we must place our goods on sale in new markets even if we must do so at a loss during the period of introduction. This we must do for the convenience of the foreign buyer and in order to induce him to become a regular consumer of our products. Second, we must bring the foreign transportation system to the door of the American producer. We must do this for the convenience of the domestic dealer and in order to induce him to look to foreign fields for a regular market for a part of his output.

"When we have a foreign transportation system that extends from the warehouse of the Amreican producer to the warehouse of the foreign buyer in every part of the world we shall be in a position to develop our selling trade to the utmost practicable extent. As a result of the esablishmen of such a transportation system we shall undoubtedly buy more extensively abroad, but the purchases will be transported in American ships whose owners and operators will be agents for the building up of American trade and whose operating expenses will be incurred chiefly in America, where the transportation profits will be retained. Under such a correlated system we shall sell more and at a better advantage, and we shall save the freight charges we have heretofore paid to the owners of foreign ships.

"In making new markets even if we do so at a loss in the beginning we shall do nothing more or less than is done by every large business concern and by every railroad company building into new territory. To introduce his goods, the manufacturer sends salesmen into territory where the immediate sales do not pay the expenses of the "drummers." But future business resulting from the initial expense justifies the undertaking. To bring new traffic to its lines a railroad builds a branch into territory that has little population, little indusry and little trade. But the establishment of transportation facilities brings people, industry and trade, with resultant returns to the railroad on its venture.

"Exactly the same ends are to be accomplished by the establishment of regular ocean transportation lines between this country and foreign ports where we have little, if any, trade at present, but where we can reasonably expect to find on outlet at profitable prices for the products of American farms, mines, factories and other activities. In this transition period in particular, when all the world is making new adjustments of trade, it is of vital importance that we put our products on foreign markets ahead of competitors if possible. And we must not only be early but constant purveyors of American products. Our foreign transportation lines must be operated on regular schedules and correlated with rail transportation so that the plow manufacturer, for instance, in Illinois, can ascertain in his local railroad office at what time and at what cost he can ship a carload of plows to Palestine, if he has an inquiry from that section of the world for his product. When such service has been established, we shall enter upon a new era of commercial expansion."

D. A. RAYBOULD RESUMED DUTIES WITH CHRONICLE

D. A. Raybould, former peninsula correspondent for the San Francisco Chronicle, resumed the duties of his former position during the week. Young Raybould left with a San Mateo contingent for Camp Lewis in October, 1917. He was in charge of the contingent. He went through the officers' training camp and was commissioned a second lieutenant. Some time later he was sent to Camp Jackson in South Carolina where he was made the camp morale officer. For the good work done by him in this position he was promoted to a first lieutenancy. Mr. Reybould was mustered out of the army over a month ago. He is glad to get back into civil life. Mr. Raybould is a rustling newspaper man who has gained the confidence of everyone on the peninsula for his fair treatment of the people and for his justice and fairness in handling the news. His friends are delighted to see him back on the job once more.

WELL-KNOWN BANKER DIED AT NERVE REST

Mr. James R. Baxter, a well-known banker of Iowa, died at "Nerve Rest" Sanitarium, Belmont, Monday morning, March 10th, at 4 o'clock, after a brief illness. His death was due to old age, and a complication of diseases. He was 87 years of age, and a native of Ireland.

Mr. Baxter came to California in early days, and amassed a fortune ni mining in this state and Idaho; later on removing to Iowa, and engaging in banking business, owning, at the time of his death, three banks in the state of Iowa. His remains will probably be buried in Cypress Lawn cemetery, in accordance with his wishes, but final arrangements will not be completed until the arrival of his brother from the east.

Mr. Baxter left a widow, who resides in Belmont. The remains are at the chapel of James Crowe Co.

IDEAL SANITARY CONDITIONS AT REMOUNT STATION

When the remount station was established at Camp Fremont it was feared that the presence of thousands of head of livestock would create a noise some condition resembling that of the stockyards in the big cities. As the station may not be in operation much longer it might be of great benefit if farmers, dairymen and sanitarians generally should pay a visit to the place and observe what was done that prevented the station from becoming at all offensive. The people of Menlo Park and Palo Alto and the territory in the neighborhood of the big corrals were at no time disturbed by disagreeable odors, such as might be expected where thousands of horses are assembled. What is more, the health record for both men and animals has been something remarkable, much betters than for the rest of the big camp at any time during its existence.

Just at this time of year it is no uncommon sight in the country to see horses and cows in small enclosures standing in slimy mud up to their knees. Officers at the remount station say that condition has been observed at times out there, but it was to be anticipated where several hundred head of stock were crowded into an area of less than an acre and that on land that is known to be boggy. But where the space is more nearly equal to that enjoyed in barnyards and pastures the depth of the mud is much less. Relief from it is always at hand for the horses, for they can go under open sheds where the ground is dry and hard at all times.

Drainage Well Planned.

A careful plan of drainage was made before the buildings were put up. From each corral along each side, runs a ditch. Into these ditches is drained all the surplus water. Whatever surplus of liquid manure there may be in the corral likewise runs into the ditches. It does not remain there stagnant but keeps moving until it goes through the main drainage ditches to the bay. It isn't difficult at this rainy season to have plenty of water in the ditches—in fact, the surplus is what bothers most people just now. However, with plenty of water falling to soak into the ground and make everything soggy elsewhere the whole of the remount station area is in such condition that it can be traversed on foot without discomfort.

All Water Drained Away.

There is a particularly low depression near the veterinary infirmary. Into it runs two streams from other parts of the grounds. Ordinarily a pond would be formed in this low place, stagnant water would make a large area very spongy and make an ideal breeding place for mosquitoes. But the army sanitary engineers dug a ditch that continues the flow of all the water. While the ground is moist it is not soft and mushy. Water does not stand there at all, it is on the move, draining away all the surplus precipitation rapidly enough to prevent accumulation, but not so fast as to dry the while surface too quickly. That is a result that farmers can appreciate more than anybody else. Small ditches along the roadside carry water to the main drainage ditch, which crosses the roadway through a small culvert. Other roads in the camp are just as well provided for drainage.

That arranges for keeping things in condition in wet weather. How about the dry times? The ditches serve just as efficiently then. No accumulation of animal matter is permitted. The ditches are flushed frequently from the water supply, thus maintaining them in a sanitary and odorless condition at all seasons of the year.

In the erection of buildings precautions were taken to elevate them from the surface of the ground sufficiently to leave a clean, dry space under them. Dampness does not penetrate them from the ground.

Glanders, that disease among horses and mules that is very much to be dreaded, made its apeparance at the station. All the suspected cases were quarantined. The malady was brought in from the outside. It did not spread. Up to January there had been 132 cases, the animals in each instance being destroyed and autopsies held to determine just how far the disease had progressed There were a few other cases of disease among the animals, but nothing that developed into an epidemic.

Men's Health Remarkable.

As to the men at the station, the health record was something remarkable. Of course there was an infirmary, but the cases handled were almost entirely results of minor accidents. Not a case of typhoid was reported and only one of influenza. That one was contracted elsewhere. Officers of the station attribute this splendid condition of healthfulness to the model system of sanitation and drainage provided. The record speaks for itself. So if anyone is at all interested in the subject a visit to the station at the present time will prove to be an exceedingly educational and profitable experience.

METHODIST - EPISCOPAL

A sub-district Centenary Rally was held Monday night at Mayfield, where Rev. G. A. Brice, former pastor of the local Mehodist church now resides.

Those in attendance from Redwood were: Mr. and Mrs. Leroy Bernard, Mr. and Mrs. F. N. Chapman, Mr. F. B. Meyers, Mr. and Mrs. W. S. Wardlaw and Rev. Oscar Smith. Other delegates came from all the Methodist churches between Redwood and Sunnyvale inclusive.

The Centenary is the Methodist portion of a missionary effort on the part of twenty large denominations to convert the world in five years. The amount of money to be raised is six hundred million dollars.

One hundred and five million of this is assigned to Methodists. The Methodists call it the Centenary movement because the demonstration is just one hundred years old. Over one hundred million will be raised in five years if each member contributes equal to one cent and a half per day.

Large sums, however, are being subscribed by millionaires throughout the world. One in St. Louis, not a Methodist, has contributed $750,000 and a Chinaman in China not even a Christian, has contributed a million dollars to the Methodist Centenary.

The Southern Methodists operating mostly in the southern states, are also raising a large amount, briging the Methodist grand total up to $150-000.

SUPERVISORS IN REGULAR SESSION

The board of supervisors met in adjourned session Saturday, March 8th, at 10 a. m., there being present John MacBain, presiding' T. L. Hickey, W. H. Brown, Jos. M. Francis and Dr. C. V. Thompson.

Attorney Rufus H. Kimball of San Francisco, representing the Juvenile Court and Probation Officer of that city, appeared before the board and addressed the members in favor of Senate Bill No. 114, which has been introduced in the Legislature and which has for its provision the increasing of State aid for whole orphan and abandoned children from $100 a year to $150 a year and for half orphans from $75 a year to $150 a year.

Attorney Kimball argued that the present high cost of living made it impossible for a child to be kept on the present allowance. He also spoke on Senate Bill No. 117, which provided for an increase of aid allowed by the counties from $11 a month to $20 a month.

Chairman MacBain asked Attorney Kimball if he favored the latter bill and Kimball said he did.

"I do not," said Chairman MacBain, "and I spent several days in Sacramento last week fighting the proposed measure. I know that the present allowance is too small, but I am against raising it to $20."

"The $20 is merely the maximum amount," explained Attorney Kimball, "and the passage of the bill does not necessarily mean that the county would have to grant that amount each time. The main question, is to find homes for these children and it is practically impossible to do so at the $11 allowance."

Attorney Kimball stated, however, that he was principally interested at this time in the passage of the bill increasing the state allowance to $150 a year and he asked the board to adopt a resolution which he had prepared approving the proposed measure. This, the board did, on motion of Hickey, seconded by Brown, all the members voting "Yes" on roll call, with the exception of Chairman MacBain who voted "No." In voting against the resolution, the chairman stated that he was not opposed to the State aid being raised but that he did not favor the increase in the county allowance to $20.

County Auditor J. J. Shields submitted his report showing the aggregate amount of allowance that can be made against the several funds of the county during the month of March, 1919. The report was ordered filed.

A communication was received from the California State Automobile Association relative to a meeting of the executive committee on the proposed State Highway bond issue that is to be held at Sacramento on March 13. The communication was ordered filed.

A communication was received from the State Board of Health expressing its opinion to Senate Bill No. 7, which has for its provision the establishment of a state hospital for tuberculosis, the cost for the construction of which is to be covered by an appropriation from the State to the amount of $250,000, while the counties are to be taxed for its support. The board of health asked the board to instruct its representatives in the Legislature to vote against the measure.

A communication was received from the board of supervisors of Santa Cruz county, enclosing a copy of a resolution adopted by that body favoring the formation of the proposed joint highway district to bring about the construction of the Skyline boulevard from San Francisco to Santa Cruz county.

The board received an application for a liquor permit, which was given its first reading, from H. Geltinge Hansen of Rockaway Beach.

On motion of Brown ,seconded by Francis, Supervisor Thompson was given permission to construct a guard fence at a dangerous place in the coast highway near the line dividing San Mateo and Santa Cruz counties.

M. Goularte, whose saloon at Pescadero had been closed by the board last year, filed a claim for $90 rebate on his license. The claim was referred to District Attorney Swart for an opinion.

The regular monthly claims were allowed by the board on motion of Thompson, seconded by Brown.

P. G. & E. EMPLOYES HOLD FIRST MEETING

The Pacific Service Employes Association, an organization composed exclusively of employees of the Pacific Gas and Electric Company, of both men and women, held its first meeting of the season on Tuesday evening, Feb. 11th, at Elks Hall, San Francisco, nearly six hundred members and their friends being present.

Meetings of the Association are held twice during the month, one meeting in Oakland and one in San Francisco, at which a diversity of entertainment is offered. The various branches of the entertainment feature of the meetings have been gathered under one head, the program committee, of which Mr R. E. Fisher is chairman. Working with Mr. Fisher are sub-committees taking care of the different sections of the programs—namely: the entertainment, speakers and technical sections.

For the meeting of Feb. 11th a program of unusual merit was given. The Bohemian Jazz Quartet sang several selections and Mr. Bayard Robley, of the University of California Extension Division, delighted the audience withh some well rendered recitations and impersonations. The newly formed dramatic section of the Association then presented "The Ninety Thousand Girl," the first of an announced series of five plays to be produced during the present season. The cast of characters included Misses Estella Braesch, Zita O'Connor, Effie Brandt, and Messrs F. S. Myrtle, Philip Carson, R. E. Fisher, all members of the Association. Mr Frank Mathieu, the well known producer of amateur theatricals, has been retained to stage the various plays scheduled and the success of the initial performance is an indication of the talent within the Association membership.

Mr. F. R. George, the newly elected chairman of the Association, and his officers have planned a great many things for the present year. Besides the committees mentioned above there are various others working along all lines of activity, each committe headed by a competent chairman. These include athletics, membership, women's affairs, inter-district relations, close contact with the boys in the service and permanent headquarters, besides those on membership, reception, attendance, etc.

The Committe on women's affairs has just completed arrangements whereby a class membership is given to the women of the Association in the Y. W. C. A., which entitles them to the use of the gymnasium and swimming pool one night a week, under the direction of the instructor. Lunch and rest rooms for the women employed in the Alameda County District were recently completed at the Company's headquarters in Oakland. These rooms were equipped and furnished entirely out of the funds of the Association, which, likewise, some time ago furnished up a rest room for the women employed at San Francisco headquarters.

Each meeting terminates with a dance, the music being furnished by the "Pacific Service" orchestra, and besides the monthly meetings the Association holds an annual dinner, picnic, and dance each year and several out of town meetings in the different interior districts.

SAN CARLOS ITEMS

Mrs. Margaret Lathan of Burlingame was here to visit the week-end with her aunt, Mrs. Andrew McDonald, Sr.

Mrs. W. D. Smith who recently sold her home, the old Wm. D. Kreger place, to Chas. B. Marvin, has purchased a new bungalow in Oakland and has moved to that place where both of her sons, Milton and Paul are established in the show business.

Willie McDonald, son of Mr. and Mrs. Andrew McDonald, who has been connected with the base hospital corps since the U. S. first entered the war, and who crossed the waters soon after his enlistment was expected to arrive in New York on his return home last Friday.

Mr. R. P. Hurlbut has the distinction of being the only one in San Carlos who was privileged to experience the recent popular epidemic, the hiccoughs, which was imported from the Garden City. After suffering almost continually for two weeks and trying all sorts of remedies from champaign to castor oil, Mr. Hurlbut has finally recovered, and says he don't care for this particular complaint any more.

Now that a lady has announced herself as a candidate for school trustee at the coming election, trustees Haydock and Cowgill have decided to take no chances, and so have ordered a talking machine from Fred Lippman the politician before one of the fair sex gets in power. The Woman's Club which was organized here last week and who will hold their meetings in the school hall will be at liberty to use the talking machine if they find it necessary.

Mrs. Harry Wade-Mahany so far the only aspirant for the vacancy as school trustee should have no opposition as we do not know of any one inthe community better qualified to fill this responsible and thankless position for Mrs. Mahany so happily combines all the faculties, all the attributes and all the elements which go to make up a well rounded out school trustee. She has had ten or twelve years experience in the control of and management of a husband and a family of three children and she is still a very young woman. And she has the advantage over many of her sex ,in that she never speaks only when she has something to say; and when she gets on the board we predict that there will be no more of those long protracted sessions which the board has formerly experienced of some member of the board talking from two to three hours over a proposition which should have been decided upon and put to a vote within ten minutes after the board had convened for business; and hence the male members of the present board will get home and report to their wives at a more sensible hour.

Mrs. R. J. Shields, who was injured from a fall when alighting from a train here some weeks ago, is reported as doing nicely and is now enjoying a well earned rest while convalescing at the Southern Pacific hospital. The chief surgeon, Dr. Ainesorth, states that Mrs. Shields will be confined to the hospital for about ten weeks, but she will have nothing to do but exercise patience and read and visit during her waking hours.

Owing to the heavy tourist travel in and out of California, station agent Cowgill was unable to engage a drawing room to Chicago for Mrs. Benedict and Mrs. Palmer who had planned to leave for their home in Detroit, April 1st, and yet the request was made four weeks in advance. All drawing rooms are booked up to April 3rd.

SUIT DISMISSED

The divorce suit of Loura M. Hawkins against her husband, George A. Hawkins has been dismissed in the superior court. The notice of dismissal was filed in the county clerk's office yesterday.

SUIT TO QUIET TITLE

Christina Zinsel has brought an action in the superior court against F. W. Schurmann, as administrator, to quiet title to certain property in South San Francisco. F. A. Reynolds is the attorney for plaintiff.

SAY, you'll have a streak of smokeluck that'll put pep-in-*your*-smokemotor, all right, if you'll ring-in with a jimmy pipe or cigarette papers and nail some Prince Albert for packing!

Just between ourselves, you never will wise-up to high-spot-smoke-joy until you can call a pipe by its first name, *then*, to hit the peak-of-pleasure you land square on that two-fisted-man-tobacco, Prince Albert!

Well, sir, you'll be so all-fired happy you'll want to get a photograph of yourself breezing up the pike with your smokethrottle wide open! *Talk about smoke-sport!*

Quality makes Prince Albert so appealing all along the smoke line. Men who never before could smoke a pipe and men who've smoked pipes for years all testify to the delight it hands out! *P. A. can't bite or parch!* Both are cut out by our exclusive patented process!

Right now while the going's good you get out your old jimmy pipe or the papers and land on some P. A. *for what ails your particular smokeappetite!*

You buy Prince Albert everywhere tobacco is sold. Toppy red bags, tidy red tins, handsome pound and half pound tin humidors—and —that classy, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

Doings at Peninsula Garden Spot As Told in Breezy Style By Our Reporters

A reception was held at Y. M. I. hall in San Francisco recently in honor of their past chaplain, Rev. W. P. Sullivan of Menlo Park, by California Institute, Y. L. I. During the course of the evening Father Sullivan was presented with a pair of gold cuff links as a token of the love and esteem which the members felt for their chaplain. It is with the deepest regret that California Institute parts with Father Sullivan as chaplain.

Secretary of War Baker and Chief of Staff General March of Washington will be here to inspect what is left of Camp Fremont next week. No doubt the famous secretary has heard much of Camp Fremont and will be anxious to see the site of the cantonment. We hope he will be pleased with the property on which his soldiers were trained.

A pleasant card party was given recently by Mr. and Mrs. William Dusel in honor of Mr. and Mrs. Edwin B. Harvey and their daughter, Miss Helen Harvey of Stockton. Twelve friends enjoyed a very pleasant evening.

Orders were received last week from the war department at Washington to discontinue the base hospital at Ravenswood. Owing to a lack of equipment the proper surgical operations could not be preformed on the wounded overseas soldiers now returning. All the sick and invalid soldiers will be removed by the first of the month to the Letterman hospital at the Presidio. It is said the buildings and grounds will be turned over to the children's hospital of San Francisco.

The Rooses will be down from the city right after the first of April and the improvements are to be completed by that time. An experienced landscape gardener is in charge.

Young lady stenographers have also taken the place of soldier typewriters, civilian teamsters have repiaced the boys in khaki. Several hundred will be employed in the various departments of the camp.

Every effort is being made to bring the Ford factory to Menlo Park. A well-known businessman departed during the week for Detroit to interview Mr. Ford on his proposition. It is understood that property owners are willing to co-operate with the people in bringing the factory here and will give the land for the site without cost to Mr. Ford. A wire from Detroit yesterday to a local merchant gave considerable encouragement as a detailed statement of the property, price, etc., was asked to be forwarded at once to Mr. Ford at his home in Detroit.

WITHER ARE WE DRIFTING

Moralists and those opposed to divorces will be alarmed to know the following facts: From Monday of this week until the closing hour on Thursday the county clerk's office had filed five suits for divorce; the court had granted one, filed some time before and there was only one marriage license issued. This is an alarming state of affairs. Should it continue in the same ration where are we to land? What will become of the home? What is society going to do about it? The churches are doing all that they can but they seem unable to cope with the big problem.

Bank of Italy

—all California seems like home to the Bank of Italy depositor

Every month thousands of Californians travel about the big state on business or pleasure. Depositors of the BANK OF ITALY, with its 24 banking offices in 18 California cities, know what an advantage it is always to be within reach of of a friendly bank—"their" bank. They have immediate access to reliable information regarding the community where they are visiting, and also have at their command a great variety of valuable services.

But this is only one of the reasons that has caused this bank to grow from $16,392,000 deposits in 1914 to over $85,000,000.00 in 1919—a gain of 366%.

An equally important reason is the attitude of the bank toward its individual depositors—an attitude of friendliness, helpfulness and real interest in their personal welfare. You will enjoy doing business with the Bank of Italy.
